### THE POPI ACT

The purpose of the PoPI Act is to ensure that all South African institutions and/or organisations conduct themselves in a responsible manner when collecting, processing, storing and sharing another entity's personal information by holding them accountable should they abuse or compromise your personal information in any way.

In order to adhere to the PoPI Act with regards to the personal information of all participants, we would like for each participant to express their permission/consent for the establishment and accessibility of a collaborative/group WhatsApp platform to be made available to the participants in order to establish a means of communicating with and to each other for urgent and informational purposes only relevant/concerning the GNI Neurofeedback Online Bootcamp Workshop.

GNI Neurofeedback Online Bootcamp aims to update all participants regularly as to its arrangements and information purposes. For this reason, we would like to establish a group chat using the WhatsApp facility/platform. For us to establish this group platform, we will need to use your phone number(s) to add you to the group platform. This means that other people in the group can see your contact telephone number. We are committed to ensuring that any personal information you provide is handled fairly and confidentially and in accordance with the relevant Data Protection legislation. We will not share your mobile number with any third party and will only be shared with the WhatsApp group.
